New Band Music

SYNTONOS, GR 5,

McGinty 75.00

An overture for Band with energetic flowing rhythms and the beautiful McGinty melodic lines. The meter changes are demanding, but fun for both the players and the conductor. A significant band composition excellent for competition performance.

SINFONIA MARZIALE,

Del Borgo (MD) 65.00

A new exciting contest type composition from Elliot Del Borgo featuring strong driving percussion parts and very playable wind lines. This is one of those interesting selections that makes your band sound as though it's playing much more difficult music than it really is.

THE TEXANS,

Barnes (M) 65.00
